Los Angeles, CA

Recipient of BCG's Innovator Award
Two time recipient of BCG's Career Coach Star Award

Hands-on AI engineer and engineering leader with extensive experience designing, developing, and deploying enterprise software and AI-powered solutions. Specializes in Python, agentic AI, multi-agent orchestration, retrieval-augmented generation (RAG), and full-stack application development. Extensive client-facing experience and technical skills, translating business challenges into production-ready solutions. BCG X Global Topic Lead for Rapid Prototyping.

Core Skills

Programming Languages: Python, JavaScript, TypeScript, Java, Golang, SQL, currently learning Rust

GenAI Tools & LLMs: Claude Code, Cline, Cursor, Windsurf, Warp, Devin, Qodo Gen, GitHub Copilot, Grok Build, Codex, Perplexity, Gemini, Llama 3, Watsonx, Granite, Mistral, Mixtral, Hugging Face, Whisper

Artificial Intelligence: AI/ML Integrations, Large Language Models (LLMs), Model Context Protocol (MCP), Retrieval-Augmented Generation (RAG), LangChain, LangGraph, CrewAI, AutoGen, BeeAI, LlamaIndex, Ollama, ChromaDB, Pinecone, FAISS, OpenAI API, Intelligent Agent Systems

Frontend: React, Next, Angular, D3.js, Redux, Material UI, Bootstrap, RTK Query, HTML, CSS

Backend: Django REST Framework, FastAPI, Flask, Node.js, Express, Spring, OAuth 2.0, JSON Web Tokens (JWT)

Databases (RDBMS/NoSQL): PostgreSQL, MySQL, MS SQL Server, MongoDB, Neo4j, Redshift, Redis, Snowflake

Cloud Computing: AWS, Google Cloud Platform (GCP), Microsoft Azure, Heroku, Digital Ocean

DevOps & CI/CD: Git, GitHub, GitHub Actions, CircleCI, Azure DevOps, Docker, Docker Compose, Kubernetes, Datadog, Sentry, RabbitMQ, Webpack, Caching

IT Architecture & APIs: REST APIs, GraphQL, Microservices, System Scalability, Software Architecture

Data Management & BI Tools: Alteryx, Database Design, Performance Metrics, Data Governance

Project Management & Leadership Skills: Agile Methodology, Scrum, Kanban, Team Supervision, Client Engagement, Stakeholder Management, Cross-Functional Collaboration, Coaching, Mentoring

Experience

Principal Forward Deployed Engineer - AI Systems, Feb 2026 – Present

Galatiq | *Los Angeles, CA* | *Remote*

- Lead end-to-end delivery of enterprise AI agents and applications, translating ambiguous business problems into production-grade LLM-powered systems.
- Architect and implement agentic workflows, tool orchestration, and evaluation frameworks to drive measurable operational impact.
- Partner directly with client stakeholders and internal leadership to move solutions from rapid prototype to stable, scalable production deployments.
- Mentor engineers and contribute to delivery standards, reusable frameworks, and best practices for forward-deployed AI development
- Build and deploy full-stack AI applications using Python, TypeScript, and modern LLM tooling across cloud and on-prem environments.
- Explore and develop voice and real-time AI solutions, including integrations with platforms such as ElevenLabs and emerging Grok-based systems

AI Expert Coach, Feb 2025 – Feb 2026

Dance Studio Owners Association (DSOA) | *Los Angeles, CA* | *Remote*

- Led AI coaching sessions for 800+ small business owners, delivering practical AI education and adoption frameworks for non-technical audiences.
- Advised on emerging AI trends and high-impact use cases to optimize workflows and improve operational efficiency.
- Enabled hands-on adoption of AI-assisted and automation tools by integrating them into daily business workflows for measurable time savings and improved decision-making.

Senior Software Engineering Manager, Jul 2021 - Feb 2025

Boston Consulting Group (BCG X) | *Los Angeles, CA* | *Hybrid*

- Managed and mentored global engineering teams (15+), aligning architecture, delivery, and professional development while fostering strong interpersonal skills across diverse collaborators, led system design reviews, and partnered with Product and Engineering teams to deliver scalable, data-intensive AI applications aligned with business requirements.
- Built and shipped full-stack cloud-based platform features with strong problem-solving skills to streamline workflows and boost cross-functional team velocity.
- Shipped production-grade RAG chatbot agents using React, FastAPI, OpenAI API, LangChain, and Pinecone for B2B knowledge automation workflows, troubleshooting integration issues and enhancing model responsiveness.
- Built and deployed a Drug Repurposing Analytics platform, normalizing evolving pharma R&D data schemas into a unified model and reducing research turnaround time by ~32%.
- Engineered real-time defect logging automation integrated into BCG's Manufacturing AI Suite (MFG.AI), enabling process improvement in defect detection and production reporting (cut manual QA time by 50%).
- Architected resilient, cloud-based applications and frameworks to accelerate delivery, enhance developer experience, and embed security into the Software Development Lifecycle.

Lead Software Engineer, Sep 2011 - Jul 2021

Boston Consulting Group (BCG Gamma) | *Los Angeles, CA* | *Hybrid*

- Led Agile teams, established CI/CD pipelines, and automated testing, while demonstrating effective communication skills and cross-functional alignment across Product, Design, and Engineering.
- Delivered microservices-based automation platforms and real-time decision systems to optimize enterprise workflows across Fortune 500 clients.
- Developed airline disruption management automation to dynamically reroute flights, demonstrating attention to detail in time-sensitive environments and mitigating revenue loss during operational incidents.
- Built AI-powered patent analytics, contract spend optimization dashboards, and inventory management automation systems delivering millions in client savings.

Certifications

Cursor AI Forward Deployed Engineer Accreditation, Cursor

IBM RAG and Agentic AI Specialization, IBM

Introduction to Generative AI with GPT, National Association of State Boards of Accountancy (NASBA)

Professional Scrum Product Owner (PSPO) / Professional Scrum Master (PSM), Scrum.org

Education

University of Nebraska at Kearney, Bachelor's Degree
